Keeping you covered

Medicare open enrollment is the time period each year when you can review your current insurance coverage and make changes or start a new plan. Use this as a guide to evaluate your health insurance options this year to ensure you are covered for your prescription medicine.

What you should know about Medicare:

A + B = Original Medicare

- A Medicare Part A (Hospital Insurance)**
Covers inpatient hospital stays, care in a skilled nursing facility, hospice care, and some home care.
-
- B Medicare Part B (Medical Insurance)**
Covers certain healthcare provider services, such as physician-administered medications, hospital outpatient care, medical supplies, and preventive services.
-
- C Medicare Part C (Medicare Advantage)**
Replaces Original Medicare (Part A and Part B).
Includes hospital and medical insurance coverage. Plan may offer a separate prescription drug plan (MA-Part D). Offered by private healthcare insurance companies that contract with Medicare. If you enroll in a Medicare Advantage plan, you cannot enroll in a Medigap plan.
-
- D Medicare Part D (Prescription Drug Plan)**
Available to Medicare enrollees (Original or Medicare Advantage). Offered by private healthcare insurance companies approved by Medicare.
-
- Medicare Supplemental Insurance (Medigap)**
May fill “gaps” in Original Medicare coverage. Offered by private healthcare insurance companies.

Finding a plan that meets your needs

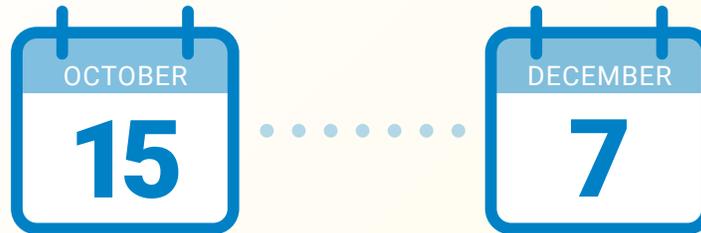

When reviewing plans to meet your medication needs, consider:

- All of my medications that I need covered
- What are my expected health and prescription needs for 2022?
- What will I be able to spend on premiums and other healthcare costs?
- Will my prescription medication be covered?
